EDUCATION

Institution:	*Degree:*	*Date:*	*Field of Study:*
University of Georgia Skidaway Institute of Oceanography	PhD	2026	Marine Sciences
University of Georgia Skidaway Institute of Oceanography	M.Sc.	2019	Marine Sciences
University of Delaware	B.Sc.	2016	Marine Sciences

SUMMARY

I am a Biological Oceanographer that synthesizes planktonic interactions across trophic, spatial, and temporal scales. My published research spans ~6 orders of magnitude in organism size, from phytoplankton-grazing dynamics to macrozooplankton ecology. I have an interdisciplinary skillset that combines field observations, experimental rates, existing datasets, and computational approaches.

POSITIONS

2021-2026	Graduate Research Assistant (PhD) – Skidaway Institute of Oceanography (UGA)
2019	Teaching Assistant (TA) – Bermuda Institute of Ocean Sciences (BIOS)
2017-2019	Graduate Research Assistant (MSc) – Skidaway Institute of Oceanography (UGA)
2015	REU Internship – University of Delaware (UD), Lewes Marine Science Campus

AWARDS/GRANTS/HONORS

2026	ASLO Eco-DAS XVII Symposium, Honolulu, Hawai`i
2024	Best Oral Presentation by Early Career Professional, 7th International Zooplankton Production Symposium, Hobart, Tasmania, Australia ($350)
2024	International Travel Grant, UGA ($1500)
2015	Summer Scholars REU Internship, UD ($2500)

PUBLICATIONS

Submitted	Gipson, E.E., Brandes, J., Treible, L.M., **Duffy, P.I.**, Greer, A.T., Frischer, M.E. Plasticity differentiates trophic niches of co-occurring doliolids and salps in a subtropical continental shelf system. *Limnology & Oceanography*. (Submitted June 2026)

2026 **Duffy, P.I.,** Treible, L.M., Gipson, E.E., Frischer, M.E. and Greer, A.T. (2026), Fullyear in situ imaging reveals fine-scale habitat differences among salp and doliolid life stages. *Limnology & Oceanography*, 71: e70458.

2025 Aaron, K.D., Greer, A.T., **Duffy, P.I.**, Treible, L.M., Frischer, M.E., Water column stratification intensity structures the functional trait composition of zooplankton communities in a continental shelf ecosystem. *ICES Journal of Marine Science, Vol. 82, Issue 6*.

2025 Titocci, J., Pata, P.R., et al. [including **Duffy, P.I.**], Pathways for converting zooplankton traits to ecological insight are paved with FAIR data practices. *ICES Journal of Marine Science, Vol. 82, Issue 2*.

2025 Greer, A.T., **Duffy, P.I.,** Walles, T.J.W., Cousin, C., Treible, L.M., Aaron, K.D., Nejstgaard, J.C. Modular shadowgraph imaging for zooplankton research in diverse field and mesocosm settings. *Limnol Oceanogr Methods*, 23: 67-86.

2023 Greer, A.T., Schmid, M.S., **Duffy, P.I.**, Robinson, K.L., Genung, M.A., Luo, J.Y., Panaïotis, T., Briseño-Avena, C., Frischer, M.E., Sponaugle, S. and Cowen, R.K. (2023), In situ imaging across ecosystems to resolve the fine-scale oceanographic drivers of a globally significant planktonic grazer. *Limnol Oceanogr*, 68: 192-207.

2021 Harvey, E.L., Anderson, S.R., Diou-Cass, Q, and **Duffy, P.I.** Assessing the Temporal Variability and Drivers of Transparent Exopolymer Particle Concentrations and Production Rates in a Subtropical Estuary. *Estuaries and Coasts,* Vol 44, 1010–1019 (2021).

SELECTED PRESENTATIONS

2025 **Duffy, P.I.**, Frischer, M.E., Treible, L.M., Gipson, E.E., Greer, A.T. Pulses of productivity, patches, and pelagic tunicates: fine-scale aggregations influence trophic structure. ASLO Aquatic Sciences, Charlotte, North Carolina. (oral)

2024 **Duffy, P.I.,** Frischer, M.E., Treible, L.M., Gipson, E.E., Greer, A.T. Using *in situ* imaging to examine fine-scale (1 m) distributions of pelagic tunicates in the South Atlantic Bight. UGA Marine Science student symposium, Athens, GA (oral)

2024 **Duffy, P.I.,** Frischer, M.E., Treible, L.M., Gipson, E.E., Greer, A.T. Investigating life-stage specific doliolid distributions in relation to water column structure in the South Atlantic Bight. 7th International Zooplankton Production Symposium, Hobart, Tasmania, Australia (oral)

2019 **Duffy, P.I**. Transparent Exopolymer Particle (TEP) Production in DOM. *Bermuda Institute of Oceanography, Bermuda* **(invited)**

2019 **Duffy, P.I**. Aggregate Flux & The Biological Carbon Pump. *UGA Undergraduate Coastal Research Summer Course; Sapelo Island, GA* **(invited)**

TEACHING AND MENTORING

Teaching

2025 Field Study in Oceanography (TA) – University of Georgia

2023 Biology of the Marine Environment (TA) – University of Georgia

2019 Marine Plankton Ecology (TA) – Bermuda Institute of Ocean Sciences

2018 Introduction to the Marine Environment (TA) – University of Georgia

2017 Introduction to Molecular Biology (TA) – University of Georgia

2015-2016 Introduction to Chemistry (Undergrad TA) – University of Delaware

Mentoring

2023 Research Mentor – 2 undergraduate students in summer REU internships

2022 Research Mentor – 2 undergraduate students in summer REU internships

2021 Research Mentor – 2 undergraduate students in summer REU internships

2018 Research Mentor – 2 undergraduate students in summer REU internships
